Technical Project Manager | Digital Transformation Analyst

Port Harcourt, Nigeria • +234 815 253 4448 • ifeoluwaakinpelu05@gmail.com • [linkedin.com/in/ifeoluwaenochakinpelu](https://www.linkedin.com/in/ifeoluwaenochakinpelu)

## PROFESSIONAL SUMMARY

Technical Project Manager and Digital Transformation Analyst specializing in software delivery and digital transformation for enterprise and growth-stage companies. Proven track record delivering end-to-end software projects, translating complex business needs into scalable digital solutions, and driving measurable efficiency gains. Combines a strong foundation in Computer Science (B.Sc., Second Class Upper) with an ongoing M.Sc. in Artificial Intelligence to bring technical depth and strategic business alignment to every engagement. Experienced leading cross-functional teams, managing stakeholders, and building digital process frameworks adopted across multiple organizations.

## CORE COMPETENCIES

**Digital Transformation:** Process mapping, workflow redesign, technology adoption, automation, digital maturity assessment | **Project & Product Delivery:** Agile delivery, sprint planning, backlog management, cross-functional team leadership, stakeholder management

**Business Analysis:** Requirements gathering, user stories, solution evaluation, technical documentation | **Data & Reporting:** Excel, Power BI, SQL, KPI dashboards, performance reporting

**Technology & Tools:** Python, Flask, Django, REST APIs, Jira, ClickUp, Zapier, Google Workspace

## PROFESSIONAL EXPERIENCE

### Technical Project Manager | Kingdom Portal Network

Nov 2024 – Feb 2026

- Led delivery of 5 digital platforms for a global faith-based network, coordinating distributed volunteer teams from requirements through to successful deployment.
- Translated ministry goals into structured technical solutions, improving adoption and user engagement for a platform serving 2,000+ users annually with zero commercial funding.
- Managed project timelines, release planning, and stakeholder communications across international teams, maintaining consistent delivery cadence.

### Software Project Manager | Stormcell Technology

Oct 2024 – Jan 2026

- Directed end-to-end delivery of 10 B2B and B2C software products, achieving 15% faster time-to-market through improved sprint planning and release processes.
- Reduced post-release defects by 40% by implementing structured quality assurance practices including test planning, regression cycles, and acceptance criteria definition.
- Delivered 5M+(Naira) in cost savings across multiple software engagements through lean resource allocation, scope control, and streamlined vendor management.

### Tech Project Delivery Manager | Sigma Visceral Entertainment

May 2023 – Nov 2024

- Managed full-cycle delivery of a mobile racing game and an eLearning application, achieving 90% client satisfaction through proactive communication and structured delivery management.
- Led requirement gathering, project coordination, QA testing, and final deployment for both products, reducing revision cycles and delivery risk.
- Designed a delivery process framework subsequently adopted across 3 internal teams, improving consistency and project visibility organization-wide.

### Technical Officer | Pan African Institute

Jan 2024 – Oct 2024

- Managed IT infrastructure health across the organization, improving performance by 20% and maintaining 99.5%+ system uptime through proactive monitoring, maintenance scheduling, and rapid incident response.
- Implemented digital infrastructure protocols that reduced system downtime incidents by 35%, ensuring uninterrupted operations for staff and learners.

- Delivered structured technical training to 150 learners, measurably improving digital literacy and employment readiness across the cohort.

## EDUCATION

---

**M.Sc. Artificial Intelligence | University of Port Harcourt, Nigeria** *In Progress*
